AREA OF SCHOLARLY INTEREST:

Mental health and aging (broadly). My research and clinical program focus on the application of behavioral/environmental interventions for clinical problems and mental disorders in midlife and older adults. Specifically, my research program spans the areas of *behavioral gerontology*; the application of behavioral/

environmental interventions for clinical problems and mental disorders in aging and *behavioral medicine*; the application of knowledge gained from biopsychosocial and behavioral research to understanding health and treating illness. My research in these areas has targeted several important clinical problems associated with aging including medical issues that have a behavioral component (e.g., dehydration, diabetes), depression, sleep disturbances, and cognitive impairment. This research involves an exploration of how psychological, behavioral and environmental factors may contribute to the development and management of physical and mental health conditions associated with aging.

TEACHING INTEREST

My teaching interest revolves around multi-level education. My teaching philosophy centers on using and creating an *Active Learning* environment. My experiences as an educator are consistent with research on Active Learning that demonstrates that individuals learn better when the material is meaningful and interesting. Thus, in addition to didactics, I utilize a variety of strategies in the classroom to engage students including opportunities for practice (online and in vivo), discussion, applied/practical assignments, role plays, and in-class activities.

LEADERSHIP ACTIVITIES

2021 – 2024 **Faculty Council Communications Committee, Member**
University of Colorado Colorado Springs

2020 – 2021 **Faculty Assembly Experiences Study Task Force (TF), Co-Chair**
University of Colorado Colorado Springs

2018 – Present **Office of Equity, Diversity, and Inclusion, Steering Committee, Co-Chief Diversity Officer for LAS**
University of Colorado Colorado Springs

Duties: Assist in gathering information regarding current staff and faculty equity, diversity and inclusion programming, curriculum, and initiatives at UCCS. As a result of the information gathered: establish shared goals, parallel initiatives, and complementary practices; identify specific needs within the college; prioritize and develop shared initiatives, programming, and development trainings. Facilitate communication and connection between administration, faculty, staff, students and/or community.

Overview of Impact: Connected with department chairs to identify faculty and staff who would be interested in serving on a diversity council. Put together a diversity council and facilitated regular meetings until the Council was ready to be self-sufficient. Facilitated communication between diversity councils and the VCEDI, as well as, the VCEDI and the LAS Dean.

2018 – Present **Advisory Committee Member**
Faculty Assembly Women's Committee (FAWC), UCCS

Duties: Attend quarterly meetings. Assist with at least one FAWC activity during the year, e.g., helping plan an event, serving as a speaker at an event, working on a sub-committee, etc.

Overview of Impact: Active engagement as an Advisory Board member. Scheduled to co-present a workshop on work-life balance in April of 2021.

2017 – Present **Director of Clinical Training**
Department of Psychology, University of Colorado Colorado Springs

Duties: The DCT oversees the clinical PhD program's curriculum, admissions, and students' orientation. The DCT also contributes to budgetary discussions and student funding,

serves as the PI for departmental training grants, and the development/refinement or updating of program policies and procedures. The DCT leads clinical faculty department meetings each fall and spring and as necessary. In these meeting the DCT coordinates review of clinical students (MA and PhD level) and facilitates discussion of student need (e.g., remediation plans). The DCT is the point person for student grievances, student advising, and facilitate communication between a student and his/her mentor if necessary. The DCT is responsible for soliciting award nominations and pulling together an ad hoc committee for these awards. The DCT confirms the eligibility for degree conferral, monitors assessment (e.g., students' clinical evaluations), recommend curricular revisions, when necessary, complete necessary paperwork/administration duties (e.g., sending out graduate admission letters, facilitate transfer of credits, advancement to candidacy, and graduation), tracking students' internship preparation and applications, and coordinating students' clinical professional development (e.g., alerting students to training opportunities and exposure to professional development opportunities). Together with the Associate DCT, the DCT oversees all applied clinical training matters, including coordinating internal and external practica and accreditation requirements. Hold clinical faculty summer retreats to discuss curriculum changes, student feedback, etc. In a self-study year, the DCT is responsible for producing the accreditation self-study document and coordinating the clinical faculty, clinical supervisors, and affiliated faculty for assistance in the site-review process. The DCT is also responsible for any responses requested from the Committee on Accreditation (CoA) in regards to the accreditation process.

Externally the DCT represents the doctoral program in university affairs (e.g., serves on the Graduate Executive Committee) and professional leadership committees (e.g., the Council of University Directors in Clinical Psychology) and represents the program to the greater professional world through membership in professional organizations and communications.

Overview of Impact: Effectively maintained the office of DCT. Led clinical psychology doctoral program through APA accreditation process. Demonstrated high quality of our doctoral program through meeting standards of accreditation. Site reviewers described the self-study as the best they've ever seen, described our program as, "an exemplary program" and that we are "setting national standards, which is really impressive given the size of your program". Successfully received reaccreditation for the next 10 years, the longest amount of time that is awarded to any program.

Revised Graduate Student Handbooks yearly and in accordance with APA. Created the Graduate Student Activity Report (GSAR), a self-evaluation form for graduate students and their mentors to track productivity and goal setting. Helped students launch the Student Townhall meetings, an open forum to discuss issues related to the program. Townhalls evolved into student participation on two new clinical program subcommittees, Student Support and Curriculum.

Created policies to move the Clinical Psychology PhD training program online (telehealth and telesupervision) during the COVID-19 crisis in accordance with APA standards of accreditation. Provided students with opportunities to obtain telehealth trainings to meet this need and continue to provide clinical services during the pandemic.

2016 – Present

Graduate Executive Committee, Member
University of Colorado Colorado Springs

Duties: The GEC focuses on the issues of graduate education including, but not limited to, student affairs, curriculum development, and academic transactions. In particular, the GEC approves policies and procedures of the Graduate School, reviews all proposals for new graduate programs, new program options/tracks/concentrations/areas of emphasis, and makes recommendations to the Provost and Executive Vice Chancellor for Academic Affairs, and reviews proposals for significant modification of existing curricula and makes recommendations to the Provost and Executive Vice Chancellor for Academic Affairs.

Overview of Impact: Active and engaged member in the GEC since 2016.

2016 – 2018 **LAS Teaching Committee, Chair**
2010 – 2016 **LAS Teaching Committee, Member**
University of Colorado at Colorado Springs

Duties: Served as Chair of the LAS Teaching Committee for 2.5 years. Stepped in to cover the last half of another Chair's term when he stepped down unexpectedly. The committee's primary purpose is to maintain, and where possible, improve the quality of undergraduate instruction at UCCS. For example, initiating a program of faculty development (e.g., dissemination of information about new developments in technical support). Responsible for awarding the annual LAS teaching award, an honor awarded to full time tenure track faculty, senior lecturers, and part-time lecturers.

Overview of Impact: Chaired committee, organized fall meetings to discuss curriculum needs and planning for the spring LAS Teaching Awards (e.g., reviewing the call for proposals, setting dates for review of dossiers, observing candidate classes, and ensuring adequate coverage of candidate reviews). Successfully distributed call for awards, obtained and reviewed candidates for award, and submitted recommendations to the LAS Dean.

2016 – 2017 **Director of the Clinical Geropsychology PhD Program**
Department of Psychology, University of Colorado Colorado Springs

Duties: Served as graduate program director for the Clinical Psychology PhD, Geropsychology Track. Graduate program directors in collaboration with the program faculty have the responsibility for the curriculum and the integrity of the program. The program director works with the clinical faculty and their students to facilitate the admission, progression, and ultimate success of all students. Other duties and responsibilities included: working with program staff to ensure accurate written information about the program online and within Graduate Handbooks for prospective and current students; meeting with prospective students; overseeing evaluation and admission of applicants to the doctoral program, for the Geropsychology track, and coordinate recruitment activities with the Graduate School Recruiting and Retention Coordinator as needed. For continuing students, worked with the department chair or other appropriate persons to schedule and assign graduate courses, as needed, provide oversight of the scheduling administration of comprehensive exams, and served as the point person for any challenges that the students may be experiencing related to their progress in the program. For Graduating Students, worked with the DCT to verify that all requirements (e.g., coursework, examination, thesis, dissertation, capstone project) had been satisfied. In addition, worked with the DCT and clinical faculty to recommend curricular revisions, when necessary, and completed necessary paperwork/administration duties (e.g., sending out graduate admission letters, facilitate transfer of credits, advancement to candidacy, and graduation).

- Overview of Impact:* Successfully navigated this role. Assisted the Department Chair in restructuring the Director roles, which ultimately led to this role (and the parallel role of Director of the Trauma Track) being eliminated and subsumed under the DCT and Associate DCT roles.
- 2015 – 2016 **Aging Center Restructuring Leadership Committee, Member**
UCCS, Department of Psychology
- Duties:* Attended committee meetings aimed at developing and evaluating new business model and clinical training models to be used at the Aging Center. Assisted the Director of the Aging Center to work on a model for expanding the mission of the Aging Center in 3 ways: increasing access to older adults by recruiting psychologists who can accept Medicare and serve as additional resources for trainees, related to clinical service delivery as well as business aspects of providing services under Medicare. Their clinical work also expands our data pools. Next, we began collaboration with other health disciplines at UCCS to build an interprofessional team training program that will allow psychology students to work together with students in medicine, nursing, nutrition, and health promotion. Finally, worked to enhance our research infrastructure to facilitate faculty and student led research projects in the Aging Center.
- Overview of Impact:* Successful restructuring of the Aging Center.
- 2014 – 2015 **Executive Board Member (Past President)**
Psychological Society of the Pikes Peak Region
- Duties:* Primarily a supportive role; supporting the current President’s initiatives. Attending Executive Board Meetings, educational, and training events.
- Overview of Impact:*
- 2013 – 2014 **President**
Psychological Society of the Pikes Peak Region
- Duties:* Led monthly Executive Board meetings. Coordinated Board activities and set initiatives for educational and training goals for the year. Encouraged growth of membership with an aim towards increasing student access and involvement. Maintain nonprofit paperwork and status. Planned annual banquet in which we provided our members with updates from the board about the state of the organization, elections for following year’s board, and coordinated awards and solicited nominations for the prestigious Sabine Award and Outstanding Graduate Student Awards from local universities.
- Overview of Impact:* During my term as President of PSPPR, I led our executive board towards successful attainment of several educational and training goals. For example, I coordinated a series of professional workshops that we delivered to the psychological community. These workshops are typically 2-4 hours long, and Continuing Education (CE) events provide a valuable service to the local community. These events included hosting and serving on a diversity panel with local mental health professionals in the community who serve the LGBTQ+ community, an ethics workshop (CEU’s were available), and a DSM-5 training event to prepare our membership for the rollout of the new version of the diagnostic manual.
- 2012 – 2013 **President Elect**
Psychological Society of the Pikes Peak Region

Duties: Learning the duties and role of President. Attend all Executive Board meetings, support President's initiatives.

Overview of Impact: During my tenure as President Elect, I restarted our Student Member at Large position (as it had been empty for a number of years prior) and helped to generate student interest and engagement in PSPPR through the Psychology Department at UCCS.

2011 – 2012 **Executive Board Member, Member at Large**
Psychological Society of the Pikes Peak Region

Duties: Attend all Executive Board meetings, support President's initiatives.

Overview of Impact: Assisted with planning of workshops; assisted with planning of banquet and preparations.
